Wash Your Hands

**NO EATING, DRINKING or SMOKING
ALLOWED IN ANY ANIMAL EXHIBIT or CONTACT AREA!**

The Saratoga County Fair asks visitors to follow posted signs and practice safe hygiene when visiting our Fairgrounds. Interacting with animals is an important part of the fair experience. Despite the many benefits of interacting with animals, people should be aware that animals can carry germs that make people sick.

Animal born disease can cause a variety of illnesses, from minor skin rashes to serious infections. Diseases that pass from animals to humans are called zoonotic diseases and can include E. coli, Salmonella and Campylobacter. Older adults, pregnant women, young children and people with weakened immune systems may be especially vulnerable. By following some simple health tips, you and your family are less likely to get sick from touching or being around animals at the Fair.

Fair visitors should wash their hands with soap and water before and after touching any animal and never eat, drink or put anything in your mouth while in an animal exhibit or contact area. We also encourage parents and caregivers to consider leaving strollers outside and carry small children when visiting in these areas.

Adults should supervise hand washing for young children making sure children wash hands properly with soap and water after interaction with animals. Use hand sanitizer if soap and water are not readily available. The Saratoga County Fair has Hand Sanitizer Stations located in primary areas on the Fairgrounds to supplement our restroom sinks. These stations are available in food areas as well as in animal contact areas.

Handwashing

THE BEST WAY TO PREVENT THE SPREAD OF GERMS!

1 	2 	3 	4 	5
Wet your hands with warm, running water.	Apply soap and scrub hands and wrists for at least 20 seconds.	Rinse with running water.	Dry your hands with a paper towel.	Turn off faucet with the paper towel and then dispose.

**Remember to wash your hands
whenever they are dirty.**

Thank You for Helping Keep Everyone Healthy!
